

data/exceptions/sqlqueryexception.h

```
graph TD; A["data/exceptions/sqlqueryexception.h"] --> B["QString"]; A --> C["exception"];
```

The diagram illustrates the dependencies of the header file `data/exceptions/sqlqueryexception.h`. Two blue arrows originate from the bottom of the header file box and point to the boxes labeled `QString` and `exception`, indicating that the header file includes these two components.

QString

exception
